About CornerHouse: CornerHouse is a non-profit agency that provides forensic interviews and medical examinations for children and vulnerable adults suspected of being physically or sexually abused. CornerHouse hears the cries of approximately 500 children each year. Opened in 1989, CornerHouse works with police, child protection and prosecutors to provide the highest quality and most reliable information and evidence regarding allegations of abuse. CornerHouse also provides training locally, nationally and internationally. In the past 15 years, CornerHouse staff has trained over 16,000 professionals from all 87 of Minnesota's counties, 48 states, seven foreign countries and the International Criminal Court at the Hague.

About the Golden Wings Museum: The Golden Wings Museum is an American treasure. The 55,000 square-foot hangar and "living history" museum features some 25 unique and one-of-a-kind airplanes from America's Golden Age of Aviation (1920-30s).
