

Interagency Child Abuse Evaluation and Training Center

## About Us

### **Vision**

Children grow up free from abuse

### **Mission**

Assure that the voices of children and adolescents are heard

### **Child First Philosophy**

The child is our first priority.  
Not the needs of the family.  
Not the child's "story."  
Not the evidence.  
Not the need of the courts.  
Not the needs of police, child protection, or attorneys.  
The child is our first priority.

CornerHouse's Basic Forensic Interview Training is a five-day training course designed for teams of law enforcement and child protection investigators, prosecutors, and forensic interviewers. Participants learn the CornerHouse Forensic Interview Protocol™: a credible, reliable, developmentally flexible, and non-traumatic interview protocol appropriate for children, adolescents and vulnerable adults who may have experienced sexual abuse.

### **What CornerHouse graduates have to say:**

*"Training was exceptional!"*

*"I was surprised to learn how much children can disclose by using the proper techniques."*

*"I chose CornerHouse because it was suggested to me by other investigators and was said to be one of the best trainings they had been to."*

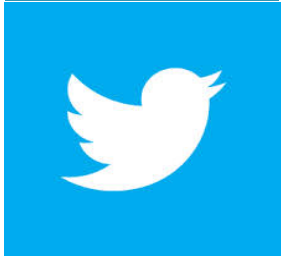

*"The trainers' knowledge and experience helped me develop a better understanding of my work."*

## **April is Child Abuse Prevention Month**

With April being Child Abuse Prevention month, take time to recognize that we can each play an important part in promoting the health and well-being of children and families in our communities. No child should have to live in fear. This is a time for all of us to come together and recognize the role we can play in preventing child abuse and neglect. April is an important time to raise awareness about the issues surrounding child abuse and the impact it has on our communities. The vicious cycle of child abuse is interrupted only when children are heard and the abuse is stopped.
